- Developed the Awards Show PowerPoint

SCHEMATIC DESIGN
Rosiclare City Park entry sign inspired by the fluorapatite mining history of the area. The sign structure is an enlarged mining pick with individual letters supported by the head. The letters themselves can be internally illuminated or lit from below for night-time visibility. In the past years that the Army Corp of Engineers has to preserve the area beyond the lake, the entire sign can be temporarily removed from the base and reinstalled afterwards.

Rosiclare City Park
